

Jay County High School

ABOUT

Jay County High School is located in East Central, Indiana. The mission of the Jay County High School is to empower students to develop their individual potential by acquiring the knowledge, skills, and values needed to contribute to a healthy, productive, diverse, global population.

WHO WE SERVE

Jay County High School serves approximately 1,122 9-12 grade students and their families.

BEST PRACTICE

We split students up into three groups. Freshmen, sophomores and juniors, and then seniors. Each student received a pass with their name, time to come down to a meeting, the ScholarTrack website address, and their Scholar ID. With this information, students were able to login successfully. If they were not, guidance counselors were at a table available for students to come and change their e-mail or their information.

HOW TO...

Step 1: Split up Scholars into groups

Step 2: Create hall passes for each student with their Scholar ID and the ScholarTrack website information

Step 3: Call students down to a meeting in groups to set up ScholarTrack accounts.

Step 4: Have a table where counselors are available for students to change their information if needed.
